CYCLING FAQ

1. The event takes place in Morgan-Monroe State Forest with the start and finish line at the intersection of Old State Road 37 and Main Forest Road. Due to construction on SR 37, we recommend taking Old State Road 37 East/North to get to the event. If you are traveling north on Walnut Street, make a right onto Old State Road 37, and the event site is 10 miles down the road.
2. Parking will be scarce near the starting area, but there are many cutout areas in the first few miles of the course where you can park and ride back.
3. The course is 5 miles down and 5 miles back staying on Main Forest Road the entire time. At the end of the first 5 miles, you'll circle around a cone and head straight back. There are several roads along the course you can turn off on, but you'll always stay on the main road through the event.
4. Instead of a road race, we'll use a time trial format. We'll send a new rider off approximately every 30 seconds, and everyone will be competing against the clock, not necessarily each other.
5. We'd like everyone to show up, get checked in, and **be ready to ride by 8:20am at the latest.**
